KIOTI

CK3010 SERIES
ROPS

THE IDEAL TRACTOR FOR ANY LIFESTYLE.

The CK3010 is equipped with a performance proven, heavy duty HST drive unit to handle the increased horsepower of this stylish and popular compact Kioti tractor.

Single pedal controls make changing between forward and reverse easy, without clutching or hand shifting, and the operator's hands remain free for steering and implement control.

The CK3010 features a 3-cylinder, 30 hp water-cooled diesel engine. Its travel speed is adjustable using both a hand lever and a foot accelerator pedal. With a fuel tank capacity of 25L, it ensures efficient and sustained operation.

A heavy duty front axle and standard 4WD guarantee powerful traction. The CK3010 has two infinite travelling speeds: 17 km/h in forward; and 12 km/h in reverse.

It comes with a hydrostatic transmission, standard rear differential lock, wet disc brakes and a standard 540/rpm PTO. The CK3010 embodies the ideal machine for any lifestyle.
