KIOTI

CK4220 SERIES
CAB

WORK SMARTER NOT HARDER.

Versatile and gutsy, the new generation Kioti compact CK4220 42 hp Daedong diesel engine tractor comes with either manual or hydrostatic transmission.

HST models feature performance proven, heavy duty HST drives that deliver power and efficiency. The three range transmission — high, mid, low — along with a twin pedal operation makes your job easier, smoother and safer. HST models employ a two pedal system for forward and reverse with smooth engagement, acceleration and deceleration.

Pedal pressure is minimised, reducing operator fatigue during long hours of use and when doing repetitive tasks.

Manual transmission models feature 12 forward and 12 reverse speeds delivering heavy duty performance. Second and reverse gears are synchronised for efficient forward and reverse operations requiring frequent shifting. A maximum ground clearance of 340mm makes working on rocky or uneven terrain simpler.

If you are searching for comfort, efficiency and strength look no further than the CK Series, it has you covered.
