6C SERIES

136 - 143HP

6125C | 6135C RV SHIFT

DEUTZ FAHR

DEUTZ-FAHR

6C SERIES

FEATURES & BENEFITS

Ergonomic Armrest Controller

The ergonomic RV Shift satellite armrest features an advanced joystick with three fully programmable jolly buttons and two speed memory modes, putting precision control at your fingertips. Paired with an electric rear lift and push-button PTO operation in either manual or automatic mode, this system simplifies daily tasks and boosts overall efficiency.

RV Shift Transmission

The advanced 20/16 speed Powershift transmission features a durable wet clutch and two driving modes (road and work), delivering optimal performance in any condition. It includes Stop & Go functionality in both models. The 6135C has front suspension for a smoother ride. The SDD quick-turn system ensures effortless and responsive steering, making tight manoeuvres easier than ever.

Hydraulic Parking Brake

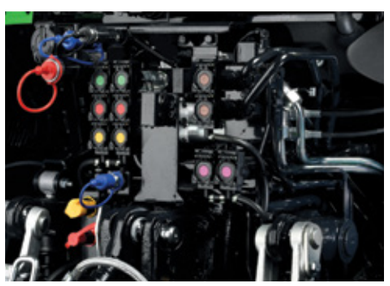
These tractors are equipped with a Hydraulic Parking Brake system. This is a combined mechanical-hydraulic system which applies a constant pressure to the rear brake discs to hold these models in complete safety in all gradients. In addition to offering effective, safe braking action, this innovative system also reduces transmission power losses. By eliminating the conventional hand brake, this system reduces power losses by an impressive 2 HP.

CAB

The upgraded Pro Vision Cab offers comfort and control with a pneumatic suspension driver's seat, a trainee seat, and an adjustable tilting telescopic steering wheel. Its integrated digital dashboard allows easy setup of all working parameters, while the internal battery isolator adds convenience.

FARMotion Engine

The FARMotion 4-cylinder turbo intercooled engine meets Tier 3 emissions standards and delivers powerful, fuel-efficient performance. Engineered for reliability and low maintenance.



Hydraulics

The 120 L/min closed-centre hydraulic system features load-sensing pumps for efficient, responsive performance. With mechanical remote engagement, it supports multiple applications simultaneously, making it ideal for demanding, multi-function operations.

Front Brake

Equipped with front axle brakes for safe stopping on flat or hilly terrain. 4WD braking improves safety with better traction, stability, and less brake wear.

Rear Linkage

The electric rear lift features convenient external controls and Category 2 hook ends, delivering smooth operation and versatility. With an impressive lifting capacity of up to 7,000 kg, it easily handles demanding equipment and heavy loads.

TECHNICAL DATA & FEATURES	6125C RV SHIFT	6135C RV SHIFT
POWER + PERFORMANCE		
Engine Type	FARMotion	
Emissions	LRC	
Cylinders / Capacity (cc)	4 Cyl / 3849cc	
Aspiration	VTG Turbo Intercooler	
Max Power (kW/HP)	100/136	105/143
Max Torque (Nm)	524	550
Rated Engine Speed (rpm)	2000	
Fuel Capacity (l)	200	
DRIVE + HANDLING		
Gearbox Type	RV Shift	
Number of Gears	20/16	
Powershift Speeds	Full Power Shift	
Automatic Powershift	Full with 2 modes	
Forward/Reverse Sense Clutch Shuttle	✓	
STOP & GO	✓with Advanced System	
Speed Matching	✓	
Min Speed (km/h)	1.5 Optional Creep 0.002	
Max Speed (km/h)	ECO 40Km/h	ECO 50Km/h
4WD + Diff Lock	Push Button with ASM Engagement	Push Button
Brakes (No. / Type)	4 Wheel Braking	
Wheel Size - Rear	480/70R34	600/65R38
Wheel Size - Front	380/70R24	540/65R24
PTO Type	Independent Wet Clutch	
Speeds - Rear	540/540E/1000
